SUMMARY

Senior Software Engineer and Full-Stack Developer with **5+ years of experience** delivering **enterprise applications** for telecommunications, banking, and business operations. Strong in **Laravel, React.js, Node.js/NestJS, REST APIs, microservices**, workflow automation, and database-driven systems. Experienced in **system design, integration, testing, documentation**, and cross-functional delivery.

Core Competencies: Full-Stack Development, System Design, REST APIs, Microservices, Workflow Automation, Database Design, Agile/Scrum, and Technical Documentation.

PROFESSIONAL EXPERIENCE

Software Developer

[Afghan Telecom Corporation, Kabul](#)

Jun 2025 - Present

- Develop and enhance the **DSL Management System** with **Laravel, Livewire, React.js, REST APIs, and MySQL**.
- Automate telecom workflows** for services, surveys, sales, stock, and operational reporting.
- Design **APIs and back-end services**, integrate enterprise modules, and **optimize performance and maintainability**.
- Collaborate with **stakeholders, QA, MDF, and technical teams**; maintain **API, workflow, configuration, and deployment documentation**.

Full-Stack Developer

[Ghazanfar Bank, Kabul](#)

Dec 2024 - Jun 2025

- Led **end-to-end development of GB Suite**, digitizing **HR, Finance, Administration, and Transportation workflows**.
- Built **secure enterprise modules** with **Laravel, Livewire, FilamentPHP, Tailwind CSS, Alpine.js, and RESTful APIs**.
- Translated stakeholder requirements into **automated approvals, reports**, and maintainable system components.
- Produced **technical documentation**, workflow diagrams, and deployment guidance for internal teams.

Full-Stack Developer

[Donya International Group, Kabul](#)

May 2022 - Dec 2024

- Built and maintained **CRM, sales operations, and enterprise web applications** with **Laravel, JavaScript, and MySQL**.
- Managed the **marketing platform and multi-brand CRM email workflows** across business operations.
- Developed **scalable REST APIs** and optimized back-end services for **reliability, performance, and maintainability**.

TECHNICAL SKILLS

Programming Languages:

PHP TypeScript JavaScript
Python Java C#

Frameworks & Libraries:

Laravel Livewire React.js
Next.js Node.js NestJS
Express.js Django FastAPI
Tailwind CSS

Databases & Storage:

MySQL PostgreSQL SQL Server
MongoDB Redis

Cloud & DevOps:

AWS Docker Kubernetes
CI/CD Git GitHub Actions
Linux Mattermost Wiki Docs

Architecture & Methods:

Microservices RESTful APIs
gRPC Event-Driven Architecture
DDD Clean Architecture
SOLID Principles Design Patterns
Agile/Scrum OOP

SOFT SKILLS

Leadership Team Management
Problem Solving Communication
Time Management Adaptability
Critical Thinking
Project Management
Mentoring Strategic Planning
Cross-functional Teamwork

PROFESSIONAL EXPERIENCE

Junior Software Developer
SaveZone Vehicle Tracking Company, Kabul
Sep 2019 - Apr 2022

- Developed and maintained a **Management Information System** for **vehicle tracking and monitoring**.
- Handled **server administration, deployment, troubleshooting, maintenance, and technical support**.
- Supported **government clients**, including the **Ministry of Interior and Ministry of Defense**.

EDUCATION

Bachelor of Science in Computer Science
Kabul Polytechnic University, Kabul
Jun 2017 - Jul 2021

- Focus: software engineering, full-stack and mobile development, databases, networking, and security.
- Foundation in data structures, algorithms, discrete mathematics, automata theory, and logic.

KEY PROJECTS

ShopX Multi-Vendor E-commerce Platform - 2026
Role-based platform for customer, vendor, and administrator operations, product management, and payments.
Laravel React.js MySQL REST APIs

DSL Management System (DMS) - 2026
Enterprise telecom platform for service operations, surveys, sales, stock, reporting, and workflow automation.
Laravel Livewire React.js REST APIs MySQL

GB Suite - 2025
Banking operations platform covering HR, Finance, Administration, and Transportation workflows.
Laravel Livewire FilamentPHP Tailwind CSS

Donya International Group Marketing Website — 2023
Corporate marketing website presenting the group's services, brands, and business presence. dig.af
Laravel JavaScript MySQL Web Development

Driver Drowsiness Detection System — 2021
AI-powered road-safety system that uses a Raspberry Pi to monitor driver alertness in real time, detect signs of drowsiness, and help prevent fatigue-related accidents.
Artificial Intelligence Raspberry Pi Computer Vision Embedded Systems

AWARDS

🎓 **University Graduation**
Bachelor of Computer Science
Kabul Polytechnic University — 2021 .

🚀 **Imagine Career Program**
International career-development program supporting job readiness and professional growth — 2024 .

🎯 **Duolingo English Test**
Score: 120 out of 160 — 2026 .

COMMUNITY CONTRIBUTIONS

📺 **Jafar Explains**
YouTube creator sharing educational content on technology, future skills, personal growth, health, business, and community development.
